

CB 90

DETER-COMPLEX

The above directions are the result of our long scientific and operative experience, aimed at obtaining the best results in this specific operation. In any case, these directions are not binding and do not involve our responsibility, due to the particular, different conditions and ways of carrying out the job. In case of treatment on particular materials, especially outdoors, we recommend to contact the Geal's technical department.

CHEMICAL DEFINITION

Hydro-alcoholic solution of non-ionic natural surfactant agents. It does not leave halos.

APPLICATION & PERFORMANCE

Degreasing low-foamy detergent suitable for each kind of washable material, excluding glass.

Special Maintenance or strong degrease cleaning without affecting previous treatments.

CB 90 DETER COMPLEX must be applied undiluted using single-brush with medium/hard brush disc to carry out a decreasing renovating cleaning on very dirty already treated surfaces and blackening of the treatment in kitchens, pubs, restaurants, outdoor surfaces etc. Suitable also to remove the upper part wax treatments.

Regular Maintenance:

to be applied diluted up to 5% for frequent cleaning. Its pH, neutral and active agents, guarantees a non-aggressive deterging action; at the same time, when used at the prescribed dilution rates (1-5%), it allows you to clean the surface without damaging the wax components of the original treatment.

The combined action of surface-active agents and solvents facilitates the removal of grease from the surface and interstices.

Thanks to its neutral pH it is recommended (diluted or undiluted) for cleaning in the building site of natural non-resistant to acid washing **stone surfaces** (like slate, polished marble, etc.).

When used diluted, **CB 90 DETER-COMPLEX** allows you to clean the surface without leaving halos and dull stains.

The lavender gives the room a fresh pleasant, clean scent.

DIRECTIONS FOR USE

Special Maintenance: When used pure, apply **CB 90 DETER-COMPLEX** on surface, wait a few minutes and rub with a cloth or plastic pads (their hardness should be proportional to the consistency of the dirt); Rinse the cloth in water. Approximate coverage: 1lt. 8/15 sqm.

Regular maintenance: pour a glass of **CB 90 DETER COMPLEX** in about 3 litres of water, rub the surfaces with soft cloth/brush.

CHEMICAL-PHYSICAL SPECIFICATIONS

pH (20 °C) pure product: **8**

Specific weight (20 °C): **1,006 g/cc**

Appearance: **liquid**

Odour: **lavender-scented**

Colour: **Pale Blue**

DANGEROUSNESS

Not dangerous good

Symbols: None

S2 Keep out of the reach of children.

Ingredients in conformity with CE regulation n°648/2004.

Inferior to 5%: non ionic surfactants, anionic surfactants, EDTA sodium salt

Perfumes

The Product Safety Data Sheets according to the EEC Standard No. 91/155 are available

TRANSPORT (ADR) Road transport/(RID)Railway transport(Sea and air transport, upon request)

Not dangerous goods

Custom item : 34021300 Surfactants compound

Further information can be found on the relevant Product Safety Data Sheet

PACKAGING

1 Liter	bottle	box of 12 piece
5 Liters	can	box of 4 pieces
10 Liters	can	

Industrial packaging of loose product on demand
All the packaging is in conformity with the law
GEAL is a member of CONAI.
